PRINTFOAM

Our smooth-surface Printfoam is 10mm thick allowing deeper and more detailed impressions and is ideal for use as a fun and safe introduction to block printing for younger users. Impressions can be made in the foam blocks using either pointed or even relatively blunt objects (a pencil or wooden lollipop stick) or draw directly into the sheet to create an image. To make a print simply use an ink roller to apply block printing ink to the surface in the normal way.

Printfoam can be easily cut into shapes with a craft knife or scissors, and is commonly used for model making.

Sand Play - Nature's natural learning resource

Children learn about the world around them through their senses and the physical manipulation of their environment, making sand a rich area for learning. Playing with sand encourages sensory development and provides a fantastic opportunity for children to explore the benefits of messy play.

Sparkle Sand

Sparkle sand is a fun and creative material that is an environmentally friendly alternative to plastic glitter. Great for adding shimmer and shine to decorations, seasonal gifts and is ideal for many arts and crafts projects, including card making, collages, creating textural effects and sand painting.

Sets of 6 220g shakers €14.95

Fluorescent Sand

Bright and fluorescent coloured sand is a fun and creative material that can be used in a wide range of activities. The coloured sand is also a fantastic tool for supporting children's development in Early Years - by adding a few extra materials, using the sand as a resource in small world play.

Sets of 6 x 220g shakers €14.95

Coloured Sand

Coloured sand is ideal for sand pits, sand trays, marking and can be used in many art and craft projects including collages, creating textural effects and sand painting.
